- ▶ [PEDIGREE INFO AND EBV GRAPH](#)

BREEDER/FARMER

THE NEALE FAMILY, NEALFORD LIMOUSINS

We had seen Fastrac at a number of shows during the summer and we were impressed with both his growth and conformation which were combined with good locomotion. Therefore we decided that this bull would be suitable to use across our females. His calves have good growth, are long with full plates and have great presence in the field. We are pleased with the heifers which we believe will make good cows and his bulls, are also growing on well and will be very saleable.
