### Breeder/Farmer

Omega has been a stand-out modern Devon bull from day one; exhibiting an exceptionally correct frame and locomotion with breed character in abundance. Omega displays excellent 200, 400 and 600 Day Weights EBVs which rank in the top 5% of the breed, desired by both pedigree and commercial producers. His sire 'Stonegrove High 'N' Mighty' classified EX92 and has had a prolific career in the show ring. The Forde Abbey Beauty dam line is one of the very best cow families in the breed, consistently producing both stock bulls and breeding females to a very high standard. The medium sized, Devon breed is famed for ease of calving and facilitated finishing. In addition, it also offers wonderful mothering abilities, an excellent temperament, calves with heaps of vitality and a superior performance in their ability to convert grass to meat (September 2017 information).
