BOOMER BIRCH - BEEF PROGRAMME MANAGER

Oswald has great growth and calving trait EBV's with maternal production value and muscle depth in the top 10% of the breed . He has outstanding potential and offers breeders the chance to introduce elite maternal black genetics to their herds. His first progeny on the ground and farmers appear very happy with results so far. This bull has been providing ease of calving and the calves that display good conformation. Expect black calves which require minimal effort to thrive.
