✓ Female sexed ✓ Growth ✓ Maternal ✓ Conformation

**Breeder/Farmer**

### RACHAEL DALE - BEEF PRODUCT SPECIALIST

Atomic is a young Stabiliser bull displaying great potential. Bred by the Selside Stabiliser herd, this bull will produce calves of low birthweight ensuring remarkable calving ease, without compromising on growth rates and finishing weights. Sitting in the top 1% of his breed in EBVs for both Finisher and Profit Indexes, offspring of this bull will possess exceptional carcass quality and meet growth targets consistently.

Atomic's dam Selside Y268 is in the top 1% of the Stabiliser breed for milk, bringing strong maternal traits to this bull making Atomic a real cow maker. This combined with sound feet and good locomotion make this bull a great choice for breeding replacement heifers.
