Breeder/Farmer

We are pleased to add another Polled sire to our Signature beef line up. Norway is a heterozygous polled son of the constant producer Tulla Jaguar. Jaguar is doing a great job at Coose creating both outstanding males and females. Norway is a moderate sized bull that displays outstanding width through his loin and over his plates. His pedigree is packed with Irish greats within the breed. With 4-star maternal rankings and 5-star terminal rankings on ICBF, we expect this bull to be an exciting outcross for both pedigree and commercial producers.
