Sire: Derrygullinane Kingbull
AI Code: LN2931

Dam: Pabo Haf

MGS: Sympa

Ear Tag: UK704026 201466

Breeder/Farmer

Kingbull has bred extremely well here at Pabo and Peredur is definitely among the best of his Sons . Peredur is flashy and will be the first son of Kingbull to have semen available . Carrying double F94I gene and very easy calving lines with a shorter than average gestation and small birth weight. His dam Pabo Haf is an outstanding Sympa daughter that is extremely powerful and correct cow with bags of milk. Pinnacle a full sister of Peredur has been retained in the herd and is an extremely exciting prospect. Peredur will provide the X Factor to suit pedigree and commercial breeders.
