Breeder/Farmer

Salah is one of the latest additions to our Signature beef line-up . This exciting young bull combines exceptional growth with conformation and muscle development. His outstanding length and style is supported by an exceptional set of legs and feet. His Dam “Silverwood Eve” is one of the best cows in the Silverwood herd and she consistently produces easily calved progeny that always turn out the most consistent and best breeders. We expect this bull to produce easy calving progeny that show conformation from an early age.
