"Glen was a 'must have' acquisition, after having judged him to be overall Limousin champion, a feat repeated at many other shows. In the Irish north west Limousin herd competition, Glen was awarded the accolade of 'Most promising young bull of 2012'. Glen exhibits extreme muscularity, impressive testicular development, a spring of rib, stands on four square on strong correct legs and has a small, but masculine head. Glen has an exceptional chilled temperament"
