HARRY WOOD - DEERHOUSE LIMOUSINS

I have been looking for a bull for a while and when I saw Seanog at the Premier sale in May he was a standout for me. He went on to win Intermediate and Overall Champion in the pre-sale show and I later purchased him for 52,000gns. Seanog is full of breed character with exceptional style and the perfect Limousin head. His outstanding width and shape is complimented by a superb set of plates. This is all supported by a pedigree packed with heavily proven genetics that have consistently produced both sale and show topping progeny. Carrying one copy of the F94L gene and one copy of the NT821 gene I'm very excited to see what this bull can do in both the pedigree and commercial ring.
