Hongen

Ear Tag: WYNFR54468

AI Code: MS0071

Breeder/Farmer

Hercules is a powerhouse. This L0010 son has great phenotype of length and shape. Hercules is also a maternal cow maker, carrying milk and a great scrotal score with a docile temperament. His dam, Bay 001 Aizakura 238E, is known for producing larger animals with straight, strong top lines, great growth rates, superior maternal qualities and high yielding, top carcass quality. Hercules' sire, Mayura L0010, is known for superior meat quality. Hercules brings extremely balanced EBV's with great Marble Score, EMA and Weights. Hercules is a phenomenal bull with great promise, currently in the AWA Progeny Test Program.
